

CyberTrack Web Portal

Your clients and agents can view key information about shipments, account status and purchase orders. Your clients and agents can “see” information on a real time basis without any additional effort by you. Your clients can add orders directly into your order tracking system and create export freight bookings.

The **Cyberfreight** Shipment Web Portal is designed to give your clients and agents automated 24x7x365 visibility. The number of phone calls and emails will reduce as your clients and agents will be able to see their shipment and account information at their leisure from their own desktops.

Key Features

- ✓ **Shipment search and view**
- ✓ **Account status and invoice view**
- ✓ **Sailing schedule**
- ✓ **Order entry and view**
- ✓ **Delivery address entry by client**
- ✓ **Export bookings**
- ✓ **Clients can upload and view “public” documents**
- ✓ **Clients can download job details to a spreadsheet**

Benefits

- ✓ **Controlled access for your clients & agents via the Internet**
- ✓ **After hours information for your clients and agents**
- ✓ **Reduce phone calls and emails**
- ✓ **Greater service levels**

The screenshot shows the CyberTrack Portal interface in a Mozilla Firefox browser window. The page title is "Track Import Sea - Mozilla Firefox". The browser address bar shows "192.168.1.250:8001/ListIS.aspx". The page header includes the Cyberfreight logo and "CYBERTRACK PORTAL". Below the header, there are navigation tabs: "Track Freight/Custom Jobs", "Order Tracking Job", "Vessel Sailing Schedule", and "Account Information". The main content area is titled "Track Import Sea Jobs" and contains a search form with fields for Job Number, Your Reference, House BOL, Ocean BOL, Container, Port of Departure, Country/Port of Departure, Port of Destination, Country/Port of Destination, and Jobs created between (12/4/2010 and 11/4/2012). A "Search" button is present. Below the search form is a table of shipment jobs with the following columns: Job, Vessel, Est. Arrival, Shipper, Ocean Bill, House Bill, Port Origin, Port Dest, Weight, Volume, and Your Reference. The table contains 20 rows of data.

Job	Vessel	Est. Arrival	Shipper	Ocean Bill	House Bill	Port Origin	Port Dest	Weight	Volume	Your Reference
